

PATENT

Atty. Dkt. No. YOR920030510US1

IN THE SPECIFICATION**I. Please amend paragraph [0049] as follows:**

Referring yet again to FIG. 1, JAVA programming language classes 213 can be imported and used by rules in the ruleset. The JAVA programming language classes 213 can include standard Java JAVA programming language classes such as java.lang.Math, java.util.Vector, etc., and application classes needed by the application.

II. Please amend paragraph [0063] as follows:

At step 404, the system parses import statements. These import statements correspond to Java JAVA programming language classes. The import statements allow user-defined data types for declaring and manipulating variables of those types. Each declared type is equated to a public JAVA programming language class.
